**Subject: GSENM Mineral Info** 

Ed,

I was asked to get you some info on minerals in the GSENM. I can't put my hands on a mineral report (folks in Kanab can't either) so we pulled some readily available info together.

Attached are some maps showing various minerals and O&G and a page with some coal data.

The 39 oil and gas leases suspended in the monument are all under applications associated with the Combined Hydrocarbon Lease conversions dating back to the mid 1980's.

Hopefully this gives some basic mineral background for you.

In an ideal situation, the shape files would be best. However, I think drawing them on a map would be fine with the short time frame I have to get the map finished.

On Fri, Mar 10, 2017 at 8:09 AM, Thomas, Nathan < nthomas@blm.gov > wrote:

Lynn, are you asking for us to track down shapefiles for you or just to draw these locations on this map?
